

# ABOUT

Since 2001, Student Business Program allows students to experience the professional world with a concrete and inspiring experience.

Offered in secondary 3 and 4, the Student Business program is chosen by high schools who wish to prepare their youth through a week-long intensive internship, in a given professional setting.

Since its creation, Montréal Relève allowed more than 20,000 teenagers the opportunity to complete an internship in a variety of professional settings and organisations.

Student Business is a Montreal Relève's initiative. Founded by the Montreal Board of Trade and the City of Montreal, this not-for-profit organisation operates to support the city's socio-economical development through the preparation of the next generation of workers.

## MULTIPLE ADVANTAGES

- Receive a full training through 3 workshops during the school year to prepare them for their summer internships;
- Ongoing preparation during the school year before the summer internship;
- The unique occasion to complete a week-long internship while in high school;
- Being supported during a first encounter with the professional world;
- To validate or invalidate a career interest;
- To discover new professions and academic paths;
- An experience to bonify a resume;
- The opportunity to develop a professional image and learn the expectations of the professional world;
- The opportunity to develop autonomy ; a sense of responsibility et discover personal aptitudes;
- Create new contacts, as well as a professional network;
- Being awarded 2 school units by the Ministère de l'Éducation, de l'Enseignement supérieur et de la Recherche;
- And much more !
